INVISALIGN FORUM

Venice, 15 November 2014

PRESENTATIONS & AV REQUIREMENTS

- Please bring your PowerPoint presentation on a **memory stick**.
- If you wish to play a video file or have one already embedded into your PowerPoint presentation, please make sure the '**video file**' is also supplied on **the memory stick** (separate from the presentation)
- It has been agreed with you that we will use an 'Align Technology' PC laptops to show your presentation.
 - If you agreed with the Align team to use your own MAC laptop, you must supply the appropriate adapters to connect to VGA or HDMI
 - If you decide to use your own PC and if you do not have VGA or DVI outputs on your laptop then we may not be able to connect your laptop to the AV system
 - ClinCheck software to be installed on private laptops
 - All slides will need to be formatted to 16:9 ratio (**provided forum template**)

Note: As a backup please do bring you presentation on a memory stick and we will load your presentation onto a designated 'Align Technology' laptop that has Office 2010 PowerPoint and ClinCheck 3.1 software installed.

~ Thank you!
